OUR STORY

OUR STORY

AN IDENTITY

THAT CREATE VALUE

Ferruccio Franchi, grandfather of seven grand children, was a man who proved that only through sacrifice can one achieve high and worthy goals.

We will recount his story by focusing on the most important milestones. After a long and challenging journey, aware of his entrepreneurial abilities, he designed a unique production model and, in 1961, founded **PLASTICHE CASSANO**. The company specialized in the production of grips for bicycles, motorcycles, tools, and more, and quickly established a steady and well-regarded presence in the domestic market, eventually expanding to international markets as well.

Years of steady progress followed, during which his three children—Luigi, Augusto, and Maria Pia—gradually joined the company, each bringing new energy and significant contributions. At the time, 60% of the production was absorbed by the Italian market, while 40% was exported abroad. During those years, the company established connections with North America, South Africa, and several Eastern European countries, creating employment opportunities for many workers.

It was during this period that the Franchi siblings created the **Progrip** brand, which has now been sponsoring numerous riders in Motocross, Enduro, and Rally championships for over 30 years. In the past fifteen years, we—the grandchildren—have also become involved in the company, bringing with us a younger and more innovative spirit.

Today, we are capable of producing more than 200,000 pairs of grips per day, with 70% of our products exported worldwide. Currently, Maria Pia Franchi leads Plastiche Cassano. Together with her brothers, children, and grandchildren, she looks to the future with confidence, always seeking the most effective and suitable path for continued growth.

In memory of Mr. Franchi Ferruccio | President of PLASTICHE CASSANO 1922 - 2016

“

There are reasons, that are unknown to us, that push certain people to look beyond.

Beyond the clouds, beyond the cliffs, beyond their secret goals. Their objective is forever present and they know very well that they will reach this goal. Sooner or later.

”

OUR STORY AN IDENTITY THAT CREATE VALUE

01

FOCUS ON QUALITY

For us, quality is not just a goal – it's a core value that guides every business decision. We pursue high standards to ensure safety, reliability, and superior performance.

04

HIGH-QUALITY RAW MATERIALS

We carefully select only top-quality raw materials from qualified and reliable suppliers, because quality starts with choosing the best materials. Thanks to a rigorous production process, we maintain high standards at every stage of manufacturing, ensuring consistent and high-performance results.

As a testament to our commitment, we hold quality certifications that confirm our products' compliance and guarantee safety and transparency for our customers.

02

YEARS OF EXPERIENCE

Sixty years of business represent much more than just a long history: they are a true testament to the passion, dedication, and expertise passed down through generations.

Over the years, we have gathered knowledge, refined our processes, and built strong relationships turning experience into a real asset that today translates into quality and innovation.

05

MANUFACTURING PROCESS

Every product undergoes rigorous inspections to ensure full compliance and to fully meet customer requirements. Additionally, our product liability insurance coverage underscores our commitment to protecting those who choose our company.

03

PUTTING QUALITY TO THE TEST

For us, racing both on-road and off-road is not just about competition: it's a true open-air laboratory where every element of our products is tested under the most extreme conditions.

Every turn, every stretch of dirt, every steep climb or demanding descent reveals both strengths and weaknesses and that's where opportunities for improvement are born.

During competitions, we closely monitor precision, stability, and wear resistance.

We push every component to the limit such as protections, materials, and finishes subjecting them to impacts, vibrations, and harsh weather conditions.

LA NOSTRA STORIA

UN' IDENTITA'

CHE CREA VALORE

01

ATTENZIONE ALLA QUALITÀ

Per noi, la qualità non è solo un obiettivo, ma un valore fondamentale che guida ogni decisione aziendale. Perseguiamo standard elevati per garantire sicurezza, affidabilità e prestazioni superiori.

04

MATERIE PRIME DI ALTA QUALITÀ

Selezioniamo con cura solo materie prime di altissima qualità, provenienti da fornitori qualificati e affidabili, perché la qualità inizia dalla scelta dei materiali migliori. Grazie a un rigoroso processo produttivo, manteniamo elevati standard in ogni fase della produzione, garantendo risultati costanti e prestazioni elevate. A testimonianza del nostro impegno, possediamo certificazioni di qualità che confermano la conformità dei nostri prodotti e assicurano sicurezza e trasparenza ai nostri clienti.

02

ANNI DI ESPERIENZA

Sessant'anni di attività rappresentano molto più di una lunga storia: sono una vera testimonianza della passione, della dedizione e delle competenze tramandate di generazione in generazione. Nel corso degli anni abbiamo accumulato conoscenze, perfezionato i nostri processi e costruito solide relazioni, trasformando l'esperienza in un vero valore aggiunto che oggi si traduce in qualità e innovazione.

05

PROCESSO PRODUTTIVO

Ogni prodotto viene sottoposto a rigorosi controlli per garantirne la piena conformità e il completo soddisfacimento delle esigenze del cliente. Inoltre, la nostra copertura assicurativa per la responsabilità del prodotto sottolinea il nostro impegno a proteggere chi sceglie la nostra azienda.

03

GARE COME TEST

Per noi, le competizioni sia su strada che off-road non sono solo una sfida sportiva: rappresentano un vero e proprio laboratorio a cielo aperto, dove ogni elemento dei nostri prodotti viene messo alla prova nelle condizioni più estreme. Ogni curva, ogni tratto sterrato, ogni salita impegnativa o discesa difficile rivela punti di forza e di debolezza ed è proprio lì che nascono le opportunità di miglioramento.

Durante le gare monitoriamo con attenzione, precisione, stabilità e resistenza all'usura. Spingiamo ogni componente al limite, dalle protezioni ai materiali, fino alle finiture sottoponendoli a urti, vibrazioni e condizioni climatiche avverse.

A close-up, low-angle shot of a black motorcycle tire. The tire features a prominent geometric tread pattern consisting of small, raised triangles. A bright red stripe runs horizontally across the tire's surface. The image is overlaid with several diagonal, semi-transparent geometric shapes in shades of gray and white, creating a modern, abstract aesthetic. The text "ROAD GRIPS" is positioned in the lower right corner, partially overlapping the tire and the geometric overlays.

GREEN STRIP

3 ADHESIVE LENSES

NEW TECHNOLOGY #3272

NO MUD

Your lens should be fitted in your goggle before applying the protect strip.

Peel back the inner "ADHESIVE SIDE" film slightly.

Line up the strip on your lens.

Apply the film and gradually peel away the rest on the inner protective layer.

Apply pressure starting at the centre and working outwards.

Remove outer protective film.

GLOVES

OFFROAD

AIR TECH GLOVES

EXTRA COMFORT | PALM ULTRA LIGHT

BLACK | GREY

#4010 - 187

Developed by pro racers for the most tough Off-Road conditions, the new PROGRIP 4010 Glove has additional padding in the palm and on the outside of the thumb, in the areas where you need that "something extra" to guarantee comfort during prolonged and extreme use. All areas of high use are reinforced with evident protective stitching and panels while, for a better fit, the back of the glove and the back of the fingers have cushioned Lycra inserts where the soft rubber PROGRIP logo is attached.

OFFROAD

EXTRA LIGHT GLOVES

EXTRA COMFORT | PALM ULTRA LIGHT

SIZE: FROM S TO XXL

GREY | BLACK

#4014 - 187

*The great fit and protected feeling of this new glove are defined by the padded elastic panel in the upper side.
The extra light thickness of the palm area, allows a great control of the handlebar.*
